*Negative PPD from another source must be less than three months old. Chest x-ray (w/Positive PPD) is valid for six months.

**All bloodwork must be done at the urgent care center. All immunizations must be done the same day as PPD except for flu.

***If born after 1956 only.

Pregnant patients **cannot** receive MMR or Varicella. They **must** receive PPD, Td, Hep B, Pneumoccal, and Flu.

If pregnant patient is positive for HIV or RPR, refer them to the Health Department for treatment. Paperwork will not be completed until verification of treatment received.
